MTH2003 Differential Equations

Computer-based test

Submission deadline: The test opens on Friday 23rd October at 11:59 AM BST and closes at 23:59 on the same day. Standard Test Duration is 40 minutes. Students with ILP extra time: this has been built into your test time allowance.

The marks for this assignment contribute 15% to the module assessment.

Instructions

This assignment is AI-prohibited. Please refer to our guidance on the use of generative artificial intelligence (GenAI) tools and to the notes on GenAI tools at the end of this document.

This is individual assignment and you must not discuss it with anyone other than the lecturer. Please also refer to our regulations on academic conduct and practice.

Your test is a Timed Quiz. This means that it is an open-book non-invigilated test that will be available from the exam start time written above and it also has a TIMED DURATION from opening.

You are allowed one attempt.

There is free Navigation.

Once you open your test, you will have the fixed duration test time in which to complete your test PLUS any additional time allocated for your ILP.

Your test will show a countdown timer and automatically submit your answers when your timed duration finishes.

The quiz will begin once you select ` Attempt quiz now'.

Assignment tasks

Complete the multiple-choice ELE test by choosing one of the given options for each question.

Marking criteria

1 mark per question. There is no negative marking.

Learning outcomes

This assignment assesses the following Intended Learning Outcomes, as listed in the module descriptor: 1,2,3,5.

Skills developed

This assignment helps you to develop the following Skills to Thrive: *innovative problem solver, resilient self-advocate, critical thinker, mathematical thinking*.

Statement on use of GenAI tools

The University of Exeter is committed to the ethical and responsible use of Generative AI (GenAI) tools in teaching and learning, in line with our academic integrity policies. Direct copying of AI-generated content can be an academic offence and is addressed under plagiarism, misrepresentation and contract cheating in chapter 2 of the Academic Conduct and Practice Handbook.

This assessment is **AI-Prohibited**. This means that you must not use AI tools under any circumstances when preparing and writing for this assessment. This is because using AI tools prevents fair assessment of your ability to demonstrate the module learning outcomes.

When submitting your assessment, you must do the following.

1. Check the box during the submission process that confirms you have adhered to the university's academic conduct policy and the expectations on use of GenAI in your assessment brief.
